New Report: Consumer Identity and Access Management (CIAM): Responsible Solutions for Creating Positive Consumer Experiences

We recently sponsored a new report from EMA, covering Consumer Identities and Access Management. Read the report to get the latest insights and see how your CIAM strategy and solutions compare.

[READ THE REPORT](#)

New Video

Watch our new video, Continuous Access Evaluation with Symantec DLP and IAM, to see how our solutions can help leverage data protection risk signals to ensure that Zero Trust principles continue to apply-- even as traditional network perimeter defenses cease to be effective.

New Blogs

Looking for the latest blogs? Read our [API Academy](#) and [Symantec Enterprise](#) blogs below.

Six Health Checks for Your API

Organizations of all sizes depend on APIs to decrease time to market, achieve business goals, and connect important systems. To count on those APIs, they need to stay operational. You'll want to consider the six health checks in this post to prevent issues and other interruptions.
