View the [preliminary session agenda](#) and [register today](#).

IUA
CADRE

CADRE/CA Datacom® and IUA/CA IDMS™
Technical Conference
October 26-30, 2020

Each month, we feature a Broadcom mainframer who is making a positive impact on the technology world. Meet Jessielaine Punongbayan, Senior Mainframe R&D Engineer.

Q. How long have you been with CA/Broadcom and what are the roles you’ve held?

A. I have been working for Broadcom since November 2017. I am part of the Engineering team within the DevOps Portfolio and I am working mainly for Zowe Explorer and Explorer for Endeavor. Additionally, I am also contributing code for the Zowe Mobile Application and am writing blogs about Zowe and Cobol Development.

Q. What’s your favorite part about your job?

A. My favorite part of the job is the fact that I am doing research and development. In this job, I realized that I like innovating and inventing different mainframe solutions. I like seeing the benefits of those innovations and hearing the feedback from my colleagues and other mainframers. This drives me to work harder.

Q. Any fun facts? Any words of wisdom?

A. I am from the Philippines and in my free time I indulge myself in different kinds of activities like traveling, painting, papercrafting, crocheting, video editing, playing the piano and singing at church.

I want to enjoy life as much as I can so my words of wisdom that I want to impart to you comes from Psalm 34:8. It says “Taste and see that the Lord is good; blessed is the one who takes refuge in him.”

CA Mainframe Education is offering our Product Web-based Training at no cost for active maintenance customers.

Below, is a list of resources to assist you as a first-time user of Learning@Broadcom. You will also find the link to our Mainframe Course Catalog.

- [Two-Minute YouTube Video](#) - This video will show you how to access and navigate Learning@Broadcom

COBOL & Mainframe Modernization: COVID-19 Response

The world is changing like never before and we intend to continue to meet the needs of our ever-changing world head on. In his latest [Modern Mainframe Medium article](#), DevOps GM Jean-Louis Vignaud describes the need for modernization so mainframe applications can be more responsive to the world’s unplanned needs, both marketplace and societal.

Spurring Mainframe Innovation via a Zowe Hackathon

Fueling creativity... with pizza! Hackathons aren’t just fast-paced, competitive events, but meaningful exercises to help developers learn and grow. Learn the [top 5 tips](#) to drive internal mainframe innovation from Broadcom’s hackathon program manager, Kyle Woodworth.

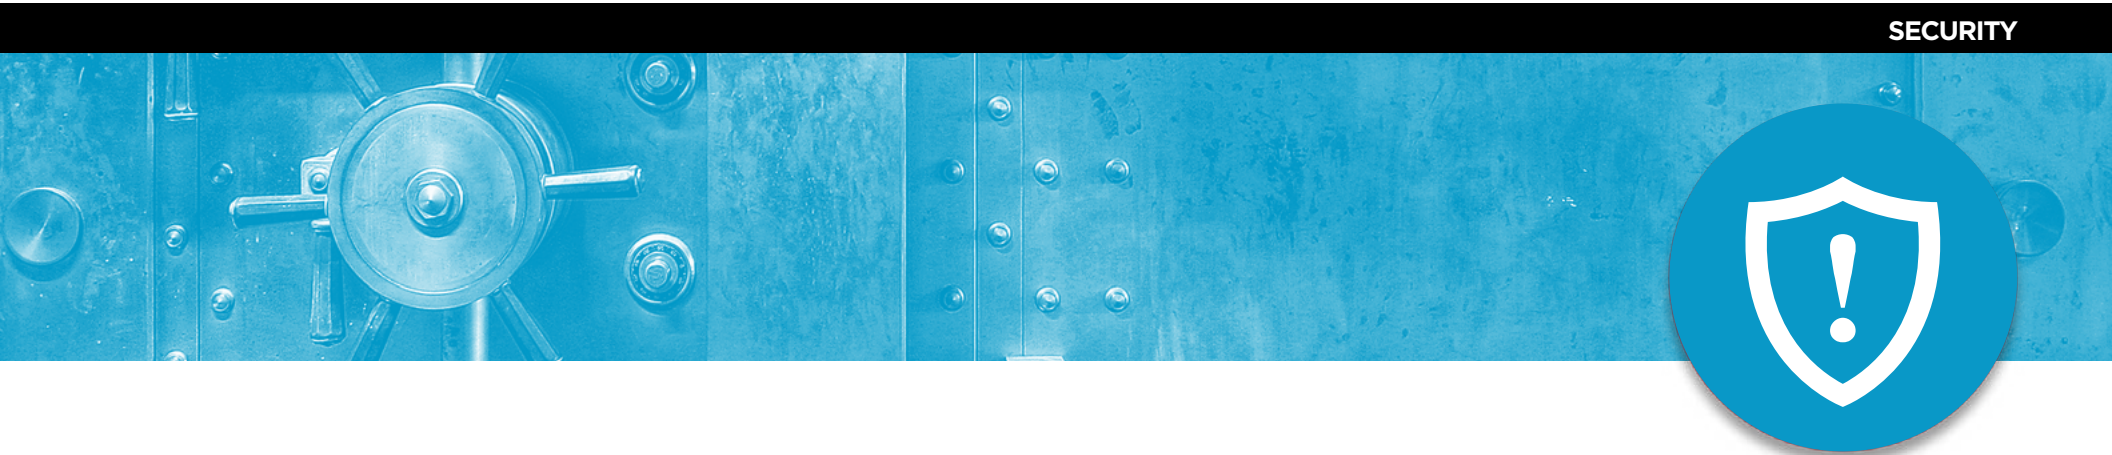

Gaining Traction with AIOps

What can AIOps do for your business? Turns out, a whole lot. In her latest [blog post](#) on LinkedIn, Director of Product Management, Nicole Fagen shares how AIOps can help your IT Ops team keep pace with growing demands and hybrid IT complexity.

New! Predefined Policy Sets for CA Compliance Event Manager

Supporting CA ACF2™, CA Top Secret®, and IBM RACF®, the [new policy](#) sets support capabilities that align with several best practice recommendations from CA MRI Security Essentials to ensure quick and simple adoption. Future policies will align with other security best practice recommendations and will be prioritized based on customer feedback. Share your thoughts and priorities on the [Community Ideation board](#).

Alert filter doesn't work in Netmaster mainframe team center

By: Lin Tian
04-24-2020

In Netmaster alert panel, 3270 GUI supports to use filters defined in /ALFILT but web interface Netmaster team center doesn't support that. It would be nice for web GUI supports the filters as well.

Enable http links to show as hyperlinks in Netmaster mainframe team center

By: Lin Tian
04-24-2020

Currently http links are showing as plain text in Netmaster mainframe team center. As a web portal, we would expect http links show as hyperlinks so users can easily access it by one click.

Congratulations to our 2020 IBM Champions!

Each year, IBM recognizes innovative thought leaders in the technical community with the IBM Champions Program. This year, [Broadcom is proud to boast our seven mainframers](#) who have been named to the program. Congratulations to all and keep up the good work!

Simplifying CA Gen Upgrades

We recently [announced](#) an end of service date of June 30, 2021 for CA Gen 8.5. For those who’ve fallen behind in their maintenance updates, this raises the question: How do I update to CA Gen 8.6 with minimal impact to my mission-critical applications built by CA Gen?

We recommend using Upgrade Console for CA Gen for an automated impact analysis of your CA Gen application portfolio. This takes the guesswork out of planning, ensuring your upgrade starts with minimal risk, known resource requirements, and confident delivery timelines.

Upgrade to [CA Gen 8.6](#) to ensure you have access to the latest features and support resources. Contact your account manager to learn more about Upgrade Console for CA Gen.

If you like what you’ve seen and would like to continue receiving our updates, please follow this [link to subscribe](#) to our monthly newsletter emails.
