Making Powerful Innovation Possible, Together

At Broadcom the partnership we pursue with our customers is more than just selling products and services. We aim to forge partnerships that make us all better, stronger mainframers and help you gain the tools needed to carry your business forward for future growth. Whether you are new to mainframe or have years of experience, our various programs are sure to have something to fuel your needs.

THIS MONTH'S FEATURED ITEMS

|

Redefining Modernization for the Digital World

Your mainframe can, and should be, an integral part of your hybrid IT environment. And with the right approach, it can also be a major driver of innovation for your business. Understand why Intellyx's Jason Bloomberg thinks so, and how you can take advantage of modern mainframe tools and initiatives to strengthen your position in the modern digital world.
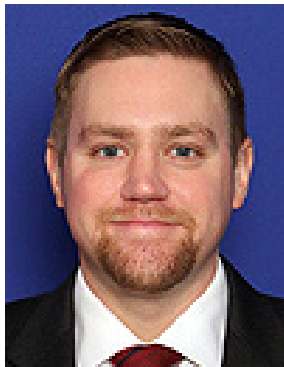

Intellyx™

On Demand Webinar: Winning Approaches to Attract, Grow, and Train Mainframe Talent in a Time of Need

Teri Taki, former CIO for the States of Michigan and California, Roger Gibson, Chief Operating Officer, Office of Information Technology for the State of New Jersey, and Deborah Carbo, Director, Mainframe Product Management for Broadcom discuss creative solutions for growing the pipeline of mainframe talent in the face of ongoing retirements and a resulting skills gap in the market.

Teri Taki **Roger Gibson** **Deborah Carbo**

Top Five Reasons to Join the CA Gen EDGE Community

The CA Gen EDGE Community has **doubled** in size in the last 6 months. Here are the top five reasons why you should join too:

1. Access the latest news and announcements for CA Gen

2. Influence the development of CA Gen

3. Interact with CA Gen users around the world

4. Contribute to conversations about modernizing, upgrading, and more

5. Get ideas for new ways to use CA Gen

How are you using Gen? Share on the CA GEN EDGE Community. Already a member? Set up your notifications so you never miss a thing.

Broadcom Products Win Approval through Zowe Conformance Program

The Linux Foundation recently announced that several Broadcom products have met the testing criteria established by the Zowe Conformance Program, an open source project led by the Open Mainframe Project (OMP) designed to help make the mainframe an agile, integrated platform. Participants, including Broadcom, incorporate Zowe with new and existing products that enable integration of mainframe applications and data across the enterprise. Zowe Conformant status provides customers with the assurance that they can
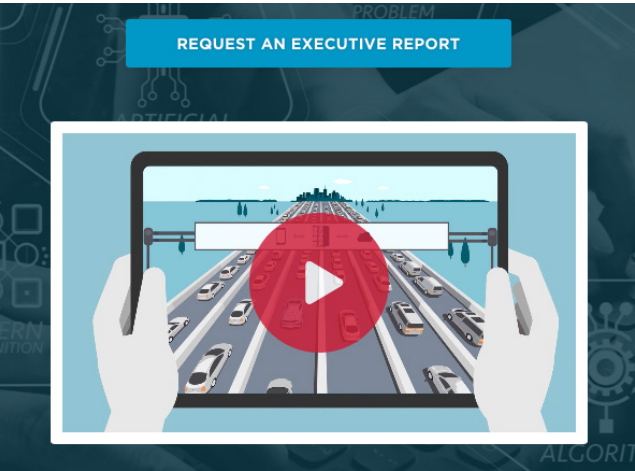

expect smooth compatibility and a superior overall user experience from the extensions they adopt. Broadcom's Zowe conformant products include:

- CA SYSVIEW® Performance Management
- CA File Master™ Plus
- CA JCLCheck Workload Automation™
- CA Endevor® Bridge for Git
- CA Endevor®
- CA IDMS™
- CA Mainframe Application Tuner (CA MAT)
- CA OPS/MVS®
- CA View®

Discover how Mainframe AIOps solutions from Broadcom embed domain expertise to turn your operational data into meaningful and actionable insights that drive trusted automation.

SECURITY

Securing an Ever-evolving Digital World

In the latest episode of Dez Blanchfield's "Conversations with Dez", Dez hosts Broadcom Director of Product Management Stuart McIrvine, discussing how mainframe security has evolved, and continues to evolve, to meet the needs of an ever-changing world — and how you can keep your business secure and compliant with the help of security solutions from Broadcom.

INFRASTRUCTURE

Get Virtual! IDUG Virtual Db2 Tech Conference Begins July 20

Broadcom is excited and proud to be a platinum sponsor at IDUG Virtual Db2 Tech Conference. While the event is virtual the benefits of attending are very real. Join us with hundreds of your peers and colleagues and see the latest advances in our Db2 solutions. Increase your Db2 expertise with our in-depth technical sessions. Chat real-time with one of our Db2 experts. Learn how you can benefit from the intersection of AI, DevOps, and Security for Db2. We look forward to (virtually) seeing you! Learn more and register now!

Join us for our Executive Keynote session: Ready or Not, Here AI Come! Monday, July 20th, 12:00 - 1:00 PM EST.

The VM platform is now more secure than ever before with VM:Secure!

In a continued effort to strengthen security, and eliminate threats within the VM platform, Multi Factor Authentication (MFA) is now offered, and recommended, for users of VM:Secure. Challenge those pesky intruders and ensure only users with the proper identity gain access to your proprietary infrastructure.

 For more information about MFA improvements in VM:Secure, please see Enhancements for MFA in the product documentation.
