

## PRODUCT ANNOUNCEMENTS

### Virtual User Group - Identity Security & API Management

Our next Virtual User Group will take place on Thursday, October 21st. This User Group will include breakout sessions for API Management, Identity & Access Management, and Privileged Access Management. We will also have customer speakers who will discuss some of their key initiatives and priorities at their organization. Don't miss this chance to hear directly from your peers in the industry, as well as Broadcom product leaders - register today!

### KuppingerCole Leadership Compass 2021 for API Management & Security

We are pleased to announce that KuppingerCole has named Broadcom an Overall Leader for API Management and Security. KuppingerCole cites, "Broadcom's API Management portfolio provides a complete solution for practically all API management scenarios imaginable, with a strong focus on enterprise-scale business-driven integration projects, thus making it particularly suitable for large enterprise customers with long-term API strategies."

### Product Spotlight - Symantec Security Analytics

Did you know that Symantec Security Analytics is now part of our Identity Security business?

Symantec Security Analytics delivers enriched, full-packet capture for full network security visibility, advanced network forensics, anomaly detection, and real-time content inspection for all network traffic. Armed with this detailed record, you can conduct forensic investigations, respond quickly to incidents, and resolve breaches in a fraction of the time you would spend with conventional processes.

For more information, go to the [Symantec Security Analytics product page](#).

## BLOGS

### New Blogs

## EVENTS AND WEBINARS

### Layer7 API Management September Office Hours

Are you currently using Layer7 API Management? If so, we invite you to join our Layer7 product experts for a 1 hour "Office Hours" meeting. This month we will look at GMU (Gateway Migration Utility) and how it is used to migrate policies and other artifacts between gateway environments.
