## EVENTS

### Layer7 API Management Office Hours

Are you currently using Layer7 API Management? If so, we invite you to join our Layer7 product experts for a 1 hour "Office Hours" meeting. This session has an open agenda - feel free to ask questions, provide feedback, and engage with our experts. We look forward to seeing you!

[REGISTER HERE](#)

### Upcoming Webinar - Zero Trust: How it Works

Is your organization focused on Zero Trust? Join Vadim Lander, CTO of Symantec Identity Security, for a continued discussion on Zero Trust within Identity and Access Management. Part 2 of this webinar series covers how Zero Trust works in the context of API infrastructure with continuous analytics and authorization within every session.

### Identity Security User Group

Our virtual user groups provide you with an opportunity to learn and share best practices with other customers, partners and the Symantec Solution Engineering team. Agenda highlights for this virtual event include a customer conversation, interactive breakout sessions highlight the technology for API Management, IAM, and PAM, and our leadership team's future vision and strategy. We hope to see you at the event!

### APJ User Group - VIP Intelligent Authentication

With remote working becoming the norm, the ability to analyze and detect potential risks as part of Zero and Continuous Authentication frameworks has never been more important. Did you know Symantec VIP Intelligent Authentication is able to predict and protect against potential threats?

Register for our virtual APJ VIP Intelligent Authentication User Group, on **April 7th, 2021 at 2:30pm – 3:30pm AEDT / 11:30am-12:30pm SGT**. This User Group will provide an overview of VIP Intelligent Authentication functionality, an explanation of how risk-based authentication is delivered by Symantec VIP, and a demonstration of how to enable VIP Intelligent Authentication to protect your organization from threats.
