New Blog - Zero Trust

Is your organization focused on Zero Trust? Read our latest blog, which discusses how trust can be your worst enemy when it comes to network security. We also invite you to determine where you are on your Zero Trust journey by taking an assessment of your current authentication environment.

EVENTS

Symantec a Premier Sponsor at Gartner IAM Summit 2021

Are you planning to attend the virtual Gartner IAM Summit on May 11-12, 2021? If so, be sure to attend both of our sessions! In our first session, Vadim Lander, CTO & Distinguished Engineer for Symantec, will present the vision for the future of the Symantec IAM suite of solutions, including a demo of the first chapter in this evolution. We are also pleased to host a customer roundtable discussion, which will highlight several current customers who are using our solutions to solve their biggest challenges.

Identity Security Virtual User Group

If you weren't able to join us on March 30th for our virtual User Group, we invite you to watch the on-demand recordings at your convenience. Highlights of the event include a presentation from Stefan Kelber, Director of Access Management at MetLife, as well as breakout sessions for API Management, Privileged Access Management, and Identity & Access Management.

KuppingerCole and Symantec - A Conversation on Privileged Access Management

Recently, Jim Taylor, Head of Product Management for Symantec Identity Security, sat down with Paul Fisher, Senior Analyst at KuppingerCole, for a conversation around Privileged Access Management. The topics of their conversation include the recent SolarWinds attack; how PAM fits in a Zero Trust model; and the role of PAM in DevOps.
