Symantec receives more recognition for leadership in Cloud Security

We are proud to share the results of two independent reports that recognize our leadership in cloud security. First, we recently received an [Innovation Leadership award for CASB](#) by Frost & Sullivan. Second, we received a high rating in the [KuppingerCole Market Compass Cloud Security](#) report based on our strengths across multiple areas.

Zero Trust Blog Series

We've just published the third and final installment of the blog series, "The three tenets of Zero Trust". If you've missed the earlier two blogs, take a look at the links below.

- [1st Tenet of Zero Trust](#)
- [2nd Tenet of Zero Trust](#)
- [3rd Tenet of Zero Trust](#)

The role of CASB and SASE in securing cloud usage

A foundational component of SASE is Symantec CASB (cloud access security broker), because it helps companies use cloud applications and services with confidence - allowing users to stay safe, secure and compliant.
