### How Centralized Decryption Can Help Meet Compliance Requirements

The decryption and inspection of enterprise network traffic is not only justifiable, but in many regards necessary to maintain the visibility needed to comply with key aspects of privacy regulations such as the GDPR, CCPA and others. ESG has recently published a whitepaper that explores the challenges of decrypting communications.

## SERVICE ANNOUNCEMENTS

### Action Required: Your ABRCA Root Certificate

As a follow up from our first email (attached is the original email dated February 18, 2021), we would like to remind you that the root certificate for one or more of your Symantec products will be expiring. Read more to find instructions as to how to update each affected product's certificate. You are advised to take action as soon as possible to avoid any system failures when the certificate(s) expire.
