

ENDPOINT SECURITY:  
NEWSLETTER

Endpoint Security Newsletter - April 2021

## PRODUCT ANNOUNCEMENTS

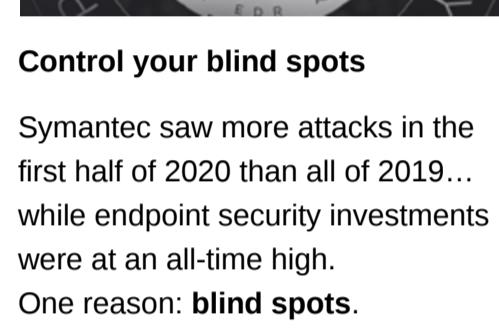

## Strategic Intelligence Reports for SESC customers

Did you know that Symantec Endpoint Security Complete customers can receive a range of strategic threat intelligence reports directly to their inbox? Compiled by Symantec's Threat Hunter team, these include quarterly in-depth research papers on major threats, and the Threat Landscape Bulletin newsletter summarizing the day's cybersecurity news. For an example of this research, read our latest research paper on Supply Chain attacks.

## Control your blind spots

Symantec saw more attacks in the first half of 2020 than all of 2019... while endpoint security investments were at an all-time high. One reason: **blind spots**. Have You Considered getting a Blind Spots assessment from Symantec? Contact your Partner or Account Director to learn more.

## What's New with Symantec® Protection for SharePoint Servers 6.10

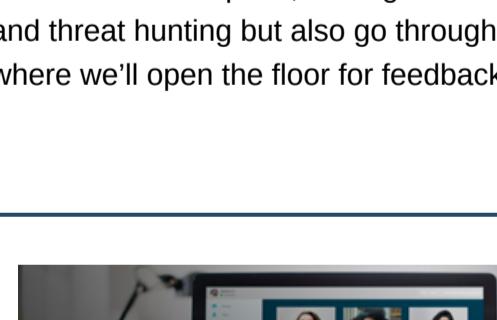

Find out how the new Symantec Protection for SharePoint 6.10 is using award-winning antivirus technologies and quickly scans files for potential threats with your SharePoint server(s). The technology integrates with the SharePoint Administration Console, enabling easy and seamless management of your SharePoint server environment.
