

IDENTITY SECURITY: NEWSLETTER

Identity Security Newsletter - October 2020

PRODUCT ANNOUNCEMENTS

Commenting Feature Now Available for SiteMinder Documentation

We want to improve our technical information in order to provide better quality material in the technical guides. As part of this effort, the [Symantec SiteMinder product documentation](#) now provides a **Comments** section at the bottom of each page so that you can provide feedback to the Technical Documentation team about the content. Visit the link below to get additional details on the process!

Updates to the VIP Documentation

The VIP documentation has been fully migrated to the Broadcom Tech Docs portal. All of the VIP documents that were previously on the Symantec Help Center are now available on the [VIP TechDocs portal](#). If you have bookmarked the Symantec Help Center, please update those bookmarks to make sure that you always see the most up-to-date documentation.

Additionally, the [VIP TechDocs portal](#) now provides a comments area at the bottom of each page so that you can provide feedback to the Technical Documentation team about the content. Log in with your Broadcom customer ID to comment, view comments, or reply. Your comment appears on the page with your first and last name. Bookmark the page to track the status of your comment (as notifications are not supported at this time). Please refer to Broadcom's [Terms of Use](#) for more information. Also, please use the comments to suggest changes to the documentation only. Continue to file support tickets for any issues with the VIP product itself.

EVENTS

Webinar: On-Demand Identity Security User Group

Did you miss our September User Group (virtual edition)? This includes an overview session where we discuss the future vision and strategy for Identity Security and on-demand recordings from the event, plus breakout sessions for Privileged Access Management, Identity Governance & Administration, SiteMinder, and Authentication.

[WATCH ON-DEMAND](#)

Webinar: Join our Next Zero Trust Webinar

Is your organization focused on Zero Trust? During this webinar, Vadim Lander, CTO & Distinguished Engineer for Identity Security, will describe what a comprehensive Zero Trust environment needs to include to achieve your identity security goals, without unnecessary disruption to your users, your developers, or your business processes.
