

# ENDPOINT SECURITY: NEWSLETTER

Endpoint Security Newsletter - June 2021

## PRODUCT ANNOUNCEMENTS

### Adaptive Protection Marks a New Chapter in Security Defense

Each of our customers is unique, has different needs, and exhibits different "normal" behaviors. It is with this in mind that we developed Adaptive Protection, part of SES Complete, that offers:

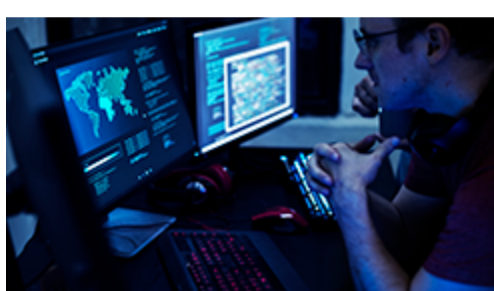

- Unique security for each enterprise
- Custom hardening of endpoints
- Better breach protection with fewer false positives
- All automated protection using Machine Learning (ML)

### The Living Off the Land Surge

The last year brought many disruptions to the workplace and left security teams scrambling to protect their new environments. Symantec's Threat Hunter team, part of Broadcom, just released new research on the growth of Living off the Land attacks, and the results are worth highlighting.

### Hardening Doesn't Have To Be Hard

Hardening your systems remains one of the most effective things you can do to prevent successful attacks. But it's not easy to do. Computers are dynamic about both what they do on the network and the software they need to run. Read this blog to find out about our **server** solution.
